Iris

For
Your
Garden
1932

The Iris Place
Lexington, Ky.

FOREWORD

We take this opportunity to greet you and trust this year, 1932, will be a most pleasant and profitable one. It is a pleasure to present you with our modest little catalogue describing to the best of our ability the different varieties of Irises which we offer. Growing of these plants started as a hobby and is yet to a certain extent; we do so because we get a genuine pleasure in studying these plants as they grow, making records, keeping all stakes "put" and seeing that nothing goes wrong with them. We have a mighty fine lot of plants ready for your garden and we sincerely trust that you will give us a chance this year to show just what our sturdy plants from Old Kentucky can do in your garden.

CATALOGUE FOR 1933

We wish to send our catalogue to all interested persons from one year to another but we must adopt some sort of measure in order to cut down useless expenses. Beginning with this issue we shall keep in file all requests for our catalogues for two years as well as those who have ordered from us. Those who request our catalogue this year will be presented with this issue as well as the copy for 1933 and if no order is received for either year, then the name will be dropped from our mailing list.

General Information

Please Read Carefully

TERMS

Cash with order or before shipment is made. We cannot send plants C. O. D. We will hold your order for one-fourth of the purchase price. NO ORDER WILL BE HELD WITHOUT SUCH A DEPOSIT.

ACCEPTANCE

All orders will be booked and shipped strictly in order as received, subject to stock being unsold

or available on receipt of order. To insure having your order filled in its entirety, we ask that you send in your order **EARLY**. Late orders are seldom filled completely on account of stock being sold out. When we cannot send certain varieties we shall notify and refund your money at time of shipment.

DELIVERY

We prefer to ship rhizomes of Irises as soon after the blooming season as possible. We consider June and July the best months to plant since plants have all summer to establish themselves. By planting in June and July, the plants have plenty of time to become established before winter sets in and they will not heave out during the winter.

PLANT IRISES IN JUNE AND JULY AND TAKE NO CHANCES ON HAVING THE PLANTS HEAVING OUT IN SPRING THROUGH ALTERNATE THAWING AND FREEZING.

We prepay postage on all orders for \$1.50 or more and for less than this amount please add 20c for postage and packing. We try and ship your orders within one to three days, providing weather conditions permit. We cannot dig Irises in a wet field.

Please note that all rhizomes are shipped in a dry condition in excelsior. This is the only and proper way to ship. Also note that all rhizomes have been treated with **SEMESAN BEL** to prevent rots. This is the added service we are giving our patrons.

PRICES

This list cancels prices of all previous lists. All prices are net cash with order. We have tried to make the price as low as possible, consistent with the production of **HIGH QUALITY** stock. We are confident that no better plants can be had anywhere in America than those grown on our place.

Prices are for single, strong field grown transplants. **Please note that June rhizomes are smaller than those taken in August.** The reason for this is that they have not completed their growth in June, but June plants, from our experience, make better plants and will be more likely to bloom the

next spring. **DO NOT** expect to get maximum bloom the first year after transplanting. It takes the second season to get fine exhibition flowers.

OUR GUARANTEE

We exercise every precaution to keep our stock fromm from disease and the deadly Borer, and we believe that every variety on our place is true to name and in case that you receive plants not as represented, we guarantee to replace two plants for each one bought, upon return of the stock bought of us. Please let us know if goods are not satisfactory when received, or later.

SUBSTITUTIONS

We never substitute other varieties unless we are requested to do so. In case we are sold out of a certain variety we shall refund your money.

COMPLAINTS

All complaints regarding your shipment must be made within twenty-four hours after arrival of plants. Before returning plants to use, write us, and in the meantime leave the plants spread out in a dry place so that they do not touch each other. **DO NOT KEEP THEM PACKED TIGHT IN ANY CONTAINER AS THIS WILL INDUCE ROTS.**

EXTRA SPECIAL

As a reward for placing your order with us before the first of June, and your order amounting to at least \$2.50, we shall be glad to include one strong rhizome of **MORNING SPLENDOR IRIS** absolutely free. Remember this offer expires the first of June, 1932.

BARGAINS

This spring we sent out a circular advertising 100 iris rhizomes. 1 each of 100 varieties for \$3.00, express collect. We were surprised at the number of orders received for which we thank you. Many of our friends wrote us that they could not use

more than 25 or 50 at the most so we have decided to continue this offer in this catalogue. Remember we make no charge for packing but you are to pay the express or postage. If you should care to have them sent by mail please enclose postage extra and we will be glad to send them that way. Now here's the offer:

Twenty-five plants, no two alike for \$1.00, postage 20c extra; 50 plants, no two alike, for \$1.75, postage 30c extra; 100 plants, no two alike, for \$3.00, but must go by express collect.

All of the plants are named varieties but at above prices are not named with labels. It takes a lot of time to label each plant and at above prices we cannot afford to do it. We will be glad to label each plant for 2c per plant extra.

We can make this offer only as follows: We must have all the orders in by a specified date so that to make it economical we dig all the orders as one big order. Therefore we must ask that you get your order to us by June 11 so that we can assemble the orders and begin digging the plants to be shipped during the week of June 13-20. No orders will be filled singly and please do not ask us to do so. We guarantee that every plant sent you will be a standard named variety and no seedlings are destroyed.

COLLECTIONS

We ordinarily do not make up collections for the catalogue. We are going to start something which we believe is novel. We are going to let you make up your collection at bargain prices. It is this: You make up your order just as if it was your regular order. Then you deduct one-fourth from the regular price and send us the balance. For instance, if your order amounts to \$10, deduct one-fourth from the \$10, which leaves \$7.50, the amount you send us. In this way you will get just what you want in your collection at a bargain price. In most bargains there will probably be some varieties that you do not want or already have and therefore you do not like to pay for these when you want something else. Therefore we believe that you will like our new novel bargain offer this year. We pay the postage on all orders

provided your order amounts to \$1.50. Remember that on a \$2.00 order all you have to send us is \$1.50.

VARIETIES

We can hear you say, "Now what varieties should I order?" At one time we had more than 900 varieties on our place. We now have less than 150, the rest have been discarded because some of the older ones have been superseded by newer varieties in size, form and purity of color. Many of the older varieties we have kept and probably will because of their usefulness in making a fine landscape. This is what we take it you are buying most of your flowers for, to make a picture in your garden. Consequently for the past two years we have been going over our fields while in bloom, and contrasting and eliminating those varieties that we felt could be dropped out of the list. We therefore list only the best, not many of them are high in price, yet we have this year cut the prices to the middle of the bone. Therefore in choosing your varieties pick out as near as possible from our color descriptions the varieties that you think you will like. All are fine irises and you can't go

We have many very fine letters from all parts far wrong in picking out any variety on our list.

We have many very fine letters from all parts of the country telling us how well our plants grow and bloom and you need not fear bad results from our plants. Reports from the cold regions of Canada are extra good. It is not the cold that hurts the plants but the changing weather conditions, and take it from us, we have it here in Old Kentucky.

We would appreciate it very much to have the opportunity to show you how our plans will perform in your gardens.

CULTURE OF IRISES

With every order we will include a sheet of instructions "what to do and what not to do", to grow fine irises. This will be free to you.

TALL BEARDED IRISES

"S" stands for standards; "F" stands for Falls.

AFTERGLOW—A very beautiful iris, with soft grayish lavender pink blends shading to buff. 38 in. Late. 25c each; 3 for 60c.

ALCAZAR—S light bluish violet; F deep brilliant purple with a bronze veined throat. Large flower. 48 in. mid season. 25c each; 3 for 60c.

AMBASSADEUR—S smoky reddish violet; F almost horizontal, deep velvety red-violet. A very fine iris. 48 in. late. 25c each; 3 for 60c.

AMBIGU—Rich rose red standards, wine red falls. A stunning color in an iris. Mid season. 34 inches. 25c each; 3 for 60c.

ANN PAGE—A very large lovely pale lavender-blue self. Very sweetly scented. Flowers of wonderful form on splendid stems. Mid season to late, 40 inches. 25c each; 3 for 60c.

ANNA FARR—S white, lightly bordered pale blue; F large frilled white with pale blue markings at base. A fine iris. Mid season. 36 inches. 25c each; 3 for 60c.

APHRODITE—A large bright violet-pink with no veining. A very sweet scented iris. Very vigorous and floriferous. Should be in every collection. Mid season 48 inches. 60c each; \$1:35 for 3.

ARCHEVEQUE—A rich red purple bicolored iris. Flowers medium in size but very floriferous and unusually rich in color. Early to mid season 30 inches. 25c each; 3 for 60c.

ARIADNE—S broad and wavy, clear silvery blue; F deeper shade suffused with reddish brown. Excellent form and substance. 40 inches mid season. 25c each; 3 for 60c.

ARGYNNIS—S pure strontium yellow; F rich velvety dark violet carmine. Late, 42 inches. 25c each; 3 for 60c.

ARLINGTON—S clear rosy-lavender; F flaring, bright velvety reddish-violet. A rich vigorous iris producing a rich crimson effect in mass. Early

to mid season, 36 inches. 40c each; 3 for \$1.10.

ATHENE—A creamy white of medium size and extremely floriferous. Excellent for garden effect. Mid season, 36 inches. 25c each; 3 for 60c.

AUREA—An old variety yet indispensible. A very beautiful all deep yellow late iris. Needed in every garden. 33 inches. 25c each; 3 for 60c.

BALBOA—S deep mauve; F flaring, dark violet red with brilliant orange beard. Very vigorous and free flowering. Mid season to late, 48 inches. 35c each; 3 for 90c.

BALLERINE—An iris similar to Lord of June but much superior. S large, very broad, rounded and waved at margin, light blue-violet; F large, slightly deeper shade with full yellow beard. Very sweetly scented. 42 inches mid season. 35c each; 3 for 90c.

BRANDYWINE—A very fine pale silvery azure-blue self with a large striking orange red beard. One of the very best. 36 inches mid season. 40c each; 3 for \$1.05.

BLUET—A very charming flower of medium size, but of a pleasing light blue color tone that is beautiful in mass. 35 inches mid season. 20c each; 3 for 50c.

B. Y. MORRISON—S pale lavender-violet; F velvety violet purple. A striking variety and very floriferous. 36 inches mid season to late. 25c each; 3 for 60c.

BUBBLING OVER—This is a nearly white with purplish hemstitching around the borders of the standards and falls. 36 inches mid-season. 25c each; 3 for 60c.

CAMELOT—S and F creamy-white, edged pale violet. A fine garden variety. 25c each; 3 for 60c.

CANOPUS—S arched light purple; F velvety prune purple. A strong vigorous variety on the order of Alcazar. 35 inches mid season. 35c each; 3 for 90c.

CAPORAL—A bright reddish-violet self of medium size but producing flowers in great abundance. Produces a rich red effect in the garden. 36 inches mid season. 25c each; 3 for 60c.

CAPRICE—S reddish-purple F slight deeper and the whole giving almost a phlox purple color. Very sweetly scented. 25 inches early to medium. 25c each; 3 for 60c.

CECILE MINTURN—A soft cattleya rose self with pale orange beard. Gives a bright pink effect in the garden. Medium size flower but a very abundant bloomer and propagator. 30 inches, mid-season. 25c each; 3 for 60c.

CHALICE—A pure yellow self. Fine for combining with other varieties. 32 inches mid season to late. 25c each; 3 for 60c.

CHESTER J. HUNT—Celestial blue S with dark marine blue F. Attempts to displace this fine blue has failed. 28 inches mid season. 25c each; 3 for 60c.

CITRONELLA—S a brilliant bright golden yellow; F rich golden brown heavily lined with carmine. Highly recommended. 38 inches mid season. 50c each; 3 for \$1.25.

COL. CANDELOT—S, a golden reddish brown overlaid with mauve; F, horizontal, rich velvety pansy violet. 34 inches mid season to late. 25c each; 3 for 60c.

CORRIDA—Clear light blue self. Altho the flowers are medium in size, they make a showy mass in the garden and bloom over a long period. 36 inches late. 25c each; 3 for 60c.

CRUSADER—A large violet-blue self, the falls slightly darker. A fine blue iris and should be in every collection. Vigorous grower. 40 inches mid season. 25c each; 3 for 60c.

DALILA—S creamy white with F white with dark pink border. A very striking and beautiful iris. 30 inches mid season to late. 25c each; 3 for 60c.

DREAM—A large beautiful rose pink with F slightly darker. Almost clear self and sweetly scented. One of the best of the near pinks. 42 inches mid season to late. 25c each; 3 for 60c.

EGLAMOUR—A light purple bicolor, flowers large and well formed on tall branched stems. Highly recommended. 44 inches mid season. 35c each; 3 for 95c.

E. H. JENKINS—S pale steel blue purple; F deeper shade with light yellow beards. A vigorous floriferous variety. 42 inches late mid season. 35c each; 3 for 90c.

ED MICHEL—Almost a distinct deep petunia violet, a near red. A very popular variety and needed in every garden. 36 inches late mid season. 35c each; 3 for 95c.

ESPLENDIDO—S violet mauve; F deeper with reddish brown markings. A fine red purple bicolor. 42 inches late mid season. 35c each; 3 for 95c.

FAIRY—A fine white with a slight bluish overcast. Extremely fragrant and indispensable in the garden. Excellent as a cut flower. 38 inches mid season. 20c each; 3 for 50c.

FIRMAMENT—An intermediate iris in two shades of blue lavender and blooming rather early when one needs color in the garden. A fine variety. 32 inches early. 25c each; 3 for 60c.

FLAMMENSCHWERT—S clear golden yellow; F velvety red. Excellent. 33 inches mid season. 25c each; 3 for 60c.

GEORGIA—A uniform Cattleya rose self; beard white tipped with yellow. A vigorous grower producing beautiful pink flowers in profusion. Bloomed at Thanksgiving for us last fall. 30 inches early. 35c each; 3 for 85c.

GLOWING EMBERS—S violet on old gold; F dahlia purple with orange beard. A striking iris and must be seen to be appreciated. 52 inches mid season. 75c each; 3 for \$1.75.

GOLD IMPERIAL—Pure golden yellow and one of the best. Rare finish and color. 33 inches mid season to late. 45c each; 3 for \$1.10.

HARMONY—A deep rich purple blue self. Very distinct. 36 inches mid season. 60c each; 3 for \$1.50.

HER MAJESTY—S pale coppery pink; F spreading, of a deeper shade heavily veined at haft and margin. Wonderful in mass. 30 inches mid season to late. 25c each; 3 for 60c.

HIPPOLYTA—S light lavender blue; F a lighter shade with deep orange beard. Landscape ef-

fect a mauve. 34 inches mid season. 30 each; 3 for 80c.

INCA (The)—S clear deep saffron yellow; F velvety dark plum, edged golden. A brilliant tall growing variety. We think it better than Iris King. 38 inches, late. 25c each; 3 for 60c.

INNOCENZA—An early intermediate white iris with a very large ruffled bloom. Very showy and effective in mass. 24 inches early. 25c each; 3 for 60c.

IRIS KING—S old gold; F very broad rich and bright crimson-mauve margined with a narrow band of gold. 24 inches mid season. 25c each; 3 for 50c .

ISOLINE—A lovely sweetly scented iris. General color effect is soft pinkish blend. A lovely thing with large flowers. 28 inches mid season. 25c each; 3 for 60c.

IVANHOE—S pale bluish lavender; F deeper shade. A fine tall attractive iris. 36 inches mid season . 25c each; 3 for 60c.

JACINTO—S light lobelia violet; F ageratum violet. A large iris with a soft pinkish blend. 42 inches mid season. 35c each; 3 for 95c.

JACQUESIANA—S orange crimson shaded copper; F flaring, velvety rich deep maroon. Very richly colored iris. Very popular. 32 inches mid season. 25c each; 3 for 60c.

JACQUELINE GUILLOT—A wonderful iris of pure lavender blue self with a wonderful surface with white beard. 38 inches late. 65c each; 3 for \$1.50.

JUNIATA—A clear violet blue self being very vigorous, free flowering and effective for a tall mass. 40 inches mid season. 25c each; 3 for 60c.

LADY BYNG—A lovely soft mauve of great garden value. Rhizomes always small but flowers very large. 36 inches late. 40c each; 3 for 90c.

LE NEIGE—A clear wax white iris flaring falls and clear yellow beard. Later than White Queen. In a class with White Knight. 24 inches late. 25c each; 3 for 60c.

LENT A WILLIAMSON—Rich velvety royal pur-

ple bicolor. A wonderful iris for the border. 42 inches mid season. 25c each; 3 for 60c.

LEONATA—S pale lavender shading to a silvery heliotrope; F slightly darker and sweetly fragrant. 48 inches early. 40c each; 3 for \$1.00.

LOHENGRIN—S light analine blue; F bright pale violet. 34 inches early mid season. 25c each; 3 for 60c.

LORD OF JUNE—S clear sky blue; F deeper analine blue. A very popular variety. 30c each; 3 for 75c.

MAGNIFICA—S light violet blue on white; F long drooping deep reddish violet reticulated brown. Very popular. 40 inches mid season. 35c each; 3 for 90c.

MA MIE—S white frilled suffused with violet; F white, penciled and margined violet. A reliable white iris; early midseason 30 inches. 25c each; 3 for 60c.

MELROSE—A fine light lavender purple bicolor. A good grower and fine in mass. Midseason, 38 inches. 35c each; 3 for 80c.

MILDRED PRESBY—S warm ivory white flushed with pale rose lavender; F rich, dark velvety pansy violet. An exceptional iris. 75c each; 3 for \$1.75.

MIRANDA—A large rich violet-blue self, being a very dark blue in effect. Highly recommended for a fine dark blue. Early mid season, 42 inches. 25c each; 3 for 60c.

MONSIGNOR—Rich bluish violet overlaid with brownish purple of wonderful substance. Mid season 34 inches. 25c each; 3 for 60c.

MORNING SPLENDOR—S petunia-violet; F rich raisin purple; orange beard. Wonderful red effect when morning sun plays on it. Mid season 42 inches. 60c each; 3 for \$1.40.

MOTHER OF PEARL—S rich glossy light lavender blue; F, slightly deeper. An iris of great beauty and form. 40 inches, late. 25c each; 3 for 60c.

MME. CHOBOUT—S cream shaded buff and pink, edged lilac; F white edged violet. Orange

beard. Very floriferous and fine in mass. Mid-season to late, 34 inches. 25c each; 3 for 60c.

MLLE. SCHWARTZ—A very large pale mauve self. A very fine iris. Keep plenty of lime on plants and they will do extremely well. Mid-season to late, 48 inches. 35c each; 3 for 85c.

MRS. ALAN GRAY—S delicate lilac-pink; F slightly darker. An old variety but still a fine garden variety. In our opinion better than Her Majesty. E to Mid season. 32 inches; 15c each, 2 for 25c, 5 for 60c.

MRS. HETTY MATSON—S purple bronze, showing buff; F broad rich crimson purple. Very large flower and fine in every way. Mid season, 46 inches. 30c each; 3 for 75c.

MRS. WALTER BREWSTER—Free flowering; S lavender blue; F blue, vined brown at haft. Late 36 inches. 25c each; 3 for 60c.

NAOMI—S bright lilac; F bright velvety dahlia carmine with yellow beard. A stunning iris. 40 inches mid season. 60c each; 3 for \$1.50.

OCHRACEA (SUNSET)—S, a real old gold, faintly bordered yellow; F flaring coppery yellow, heavily suffused with violet blue dotted brown at haft. A wonderful color combination. Late 36 inches. 30c each; 75c for 3.

OPERA—S rich red purple; F purple violet, reddish orange beard. An iris difficult to beat for mass effect. 30 inches mid season. 25c each; 3 for 60c.

PARC DE NEUILLY—A very large, rich, violet purple self, slightly ruffled. Mid season, 34 inches. 25c each; 3 for 60c.

PARISIANA—A highly colored iris. S white ground dotted purple; F white, widely frilled edges, shaded purple. Mid season 36 inches. 25c each; 3 for 60c.

PAXATAWNY—Parmay violet with yellow combination. A real pretty iris. 32 inches mid season. 25c each, 3 for 60c.

PERFECTION—An old iris and still very popular. S lavender-violet; F dark violet. A fine thing in mass. 3 feet mid season. 25c each; 3 for 60c.

PIONEER—Huge flower of rich reddish purple, with bright orange beard. 42 inches mid season. 50c each, 3 for \$1.25.

POCAHONTAS—Orchid like flower with frilled petals. S white bordered lavender violet; F white with less coloring. Very sweetly scented. 35 inches mid season. 25c each, 3 for 60c.

PRINCESS BEATRICE—This true variety is one of the finest irises. We have discarded *Pallida dalmatic* for this. Almost a uniform lavender violet self with a beautiful satiny finish. Wide flaring falls. 42 inches mid season. 30c each; 3 for 75c.

PRINCESS OSRA—Clear white with fine dots and veinings of purple, especially along the margin. A very fine iris. 40 inches mid season. 50c each, 3 for \$1.35.

PRINCESS VICTORIA LOUISE—Early and very free flowering. S yellow; F violet bordered yellow. Very striking. 25 inches mid season. 25c each; 3 for 60c.

PROSPER LAUGIER—S tan or light bronze red; F bright velvety ruby purple. A fine old variety 32 inches mid season. 25c each; 3 for 60c.

PROSPERO—S bright lavender blue; F well rounded, deep red-purple lighter at border with bright orange beard. 48 inch mid season. 40c each; 3 for \$1.00.

QUEEN CATARINA—Pale lavender violet self with white haft veined bronze with bright orange beard. Mlle. Schwartz and Mother of Pearl are quite similar. 44 inches mid season. 25c each; 3 for 60c.

QUEEN OF MAY—S lilac; F light purplish lilac to rose. Very sweetly scented and extremely fine in mass. 34 inches mid season. 25c each; 3 for 60c.

RAJPUT—A bright violet self with flaring falls and orange beard. An outstanding landscape variety. 36 inches mid season. 35c each; 3 for 85c.

RAMONA—A beautiful blending of petunia violet flushed with cinnamon brown at haft; orange

beard and sweetly scented. 36 inches mid season. 25c each; 3 for 60c.

RHEIN NIXE—S pure white; F pansy violet bordered bluish white. Very vigorous and floriferous. 30 inches mid season. 25c each; 3 for 60c.

ROSALBA—A distinct red toned variety. S rich reddish wine; F a deeper tone. 36 inches mid season. 25c each; 3 for 60c.

ROSEWAY—Deep rose pink almost a self. Bright orange beard. One of the brightest reddish pink irises but lighter than Rosalba. 30 inches mid season. 25c each; 3 for 60c.

SALONIQUE—S white faintly flushed cream and tinted violet; F purplish violet reticulated white at throat. A fine thing. 38 inches mid season. 25c each; 3 for 60c.

SEMINOLE—S dark violet rose; F rich velvety crimson with bright orange beard. Large flowers and beautiful red in mass. 34 inches mid season. 25c each; 3 for 60c.

SHEKINAH—S, clear light yellow, deeper at base; F, pale yellow deepening through the center to the bright orange beard. An excellent yellow. 36 inches mid season. 25c each; 3 for 60c.

SHERWIN WRIGHT—Pure deep golden yellow. A medium sized flower but produced in great abundance. Needed in every garden. 24 inches mid season. 25c each; 3 for 60c.

SHERBERT—S, an ecru-drab flushed with purple; F, purple lighter at edge. A very pretty blend of large size. 36 inches mid season. 25c each; 3 for 60c.

SILVER MIST—Pale porcelain blue silvery white self. Very vigorous and free flowering iris. 34 inches mid season. 25c each; 3 for 60c.

MME. GAUDICHAU—A deep blue bicolor of uniform velvety appearance. One of the best iris produced. Early mid season 40 inches. 25c each; 3 for 60c.

SWEET LAVENDER—S, pale lavender; F, broad ruffled and of a soft rosy lavender. 40 inches mid season. 25c each; 3 for 60c.

TENEBRAE—S, rich violet purple, tinged dark

mauvepurple in center; F, smooth circular, deep rich velvety red-purple with brown reticulations on haft. Very large. Very highly recommended if you want a fine flower. 38 inches mid season. 50c each; 3 for \$1.25.

TITAN—S, arching light violet blue; F, horizontal broad violet purple darker at center. Very large, of charming form an dcarriage and great substance. 40 inches mid season. 50c each; 3 for \$1.25.

TRUE CHARM—S, white; F, white frilled and slightly veined blue lavender. Vigorous and very free flowering. An exceptionally fine plicata. 40 inches mid season. 35c each; 3 for 90c.

VIRGINIA MOORE—A tall bright chrome variety veined darker on the falls. 30 inches mid season to late. 25c each; 3 for 60c.

WHITE KNIGHT—A beautiful snow white without markings and very sweetly fragrant. 36 inches mid season to late. 25c each; 3 for 60c.

WHITE QUEEN—Absolutely pure white, even the beard and styles. Very abundant bloomer and dependable. Always a fine landscape variety. 32 inches mid season. 25c each; 3 for 60c.

YVONNE PELLETIER—S, pale lavender blue; F, deeper shade with aprom inent yellow beard. Very heavy producer of blooms. 36 inches late. 25c each; 3 for 60c.

ZUA—S and F, an extremely light shade of lavender or a pure white delicately shaded or tinted lavender. A color quite hard to describe. Petals large and wavy and flower fragrant. 28 inches early. 25c each; 3 for 60c.

ZWANNENBURG—S, cream blotched greenish buff; F, chamois to olive. A very curious hybrid and very interesting. Comes in bloom nearly a month ahead of the standard varieties. A worthwhile variety even tho it has a curious mixture of interesting color combinations. 20 inches early. 25c each; 3 for 60c.

DWARF IRISES (Grow 6-8 inches tall)

These small plants blooming more than a month before the May flowering varieties are ideal for the rock garden or for edging. We offer the following choice varieties at 20c each, or 3 of same variety for 50c, or 12 of same variety at \$1.25.

CAERULEA—pure sky blue.

CYANEA—deep purple.

GRAMINEA (Socrates)—deep wine purple, fragrant. Extra fine.

MAROCAIN—Darkest blue purple.

NEGUS—light blue purple.

ORANGE QUEEN—extra fine orange yellow.

SCHNEEKUPPE (Snowcup)—pure white.

EXCELSA—pale lemon yellow.

SPANISH IRIS

We have a fine stock of these bulbous irises that we offer in one color only, a deepest dark blue at 75c per dozen bulbs. These cannot be dug until the tops are ripe about the first of August. Plant and treat like tulips. Plant about 4 or 5 inches deep about the last of September or early in October. Grows to about 20 inches. Very beautiful and long lasting as a cut flower. Send in your order and shipment of bulbs will be made when proper time comes. \$4 per 100.

OTHER IRISES

TECTORUM BLUE—the flowers are somewhat like a japanese iris, lavender in color with purplish dots. 25c each; 3 for 50c.

TECTORUM ALBA—Pure white form of above. \$1.25 each.

IRIS FULVA—one of the parents of Dorothy K. Williamson, terra cotta flower. A very charming wild plant that does well in the garden. 75c each.

DOROTHY K. WILLIAMSON—a hybrid with beautiful royal purple flower. A fine iris. 25c each; 3 for 60c.

SPURIA MRS. TAIT—tall growing variety with porcelain blue flowers. Will not bloom until it becomes established, usually the second year after setting. Large clumps at 50c each.

SPURIA AUREA—Similar to Mrs. Tait, tall growing but a beautiful deep buttercup colored flower. Large clumps at 50c each.

IRIS SEED

If weather is favorable at blooming time we can usually supply seeds of irises at 25c per pkt. Seed saved only from the very best of varieties. If interested please write us about the middle of June at which time we can give you a list of pod bearing plants.

BLACKBERRY LILY

We can supply strong roots of this iris like plants at 25c each, or seed which grows readily at 10c per pkt.

PEONIES

We have decided to dispose of a part of our collection of Peonies and if you are interested please write for our circular. We can save you money.

TULIPS

We have several thousands of beautiful tulips, about 75 varieties that have become mixed or the labels have been lost. There are Darwins, Breeders and Cottage forms and these we shall dispose of as long as stock lasts at \$2.50 per 100 postpaid. This is a wonderful mixture. Shipments to be made after the middle of August. Plant them 4 inches deep and 6 to 8 inches apart the middle of September to the first of November, depending on where you live.

NARCISSUS

We also have a beautiful collection of these bulbous plants that have gone the same as the tulips. Labels lost and we will close these out at the following prices: \$4.00 per 100, postpaid. Shipment after the middle of August.
